Is it possible that the choices you make in each moment of every day have a direct impact on the world around you?

The knowledge about the 'Secrets of the Collective Consciousness' is taught since ancient times in mystery schools. This knowledge is now open to everyone! These secrets can be used by you for healing and bringing peace to your body. You can bring lasting compassion to your world.

Ken Page shares his knowledge and insights from the Teachings of the Red School and the Third Eye of Horus Mystery School. Take a journey through your own consciousness: a journey that brings ancient wisdom and a realization that the most powerful force in the universe is within yourself!

Highlights include:

- Achieve the highest and purest vibration available within yourself
- Learn how to be safe and keep your family and friends from harm
- Uncover old patterns that have been holding you in your past
- Locate and free those parts of yourself or your families still trapped in the energy of the collective consciousness and bring them back into your moment
- See dramatic charts clearly depicting the blueprint of your own life journey and soul evolution
- Learn to activate your pineal gland for the awakened healing principle within your DNA: (a) the power to heal your body, (b) the foundation to resolve past patterns and conflicts and (c) a method to release your past energy patterns for peace within your relationships
- Discover the secret of why Collective Consciousness was re-created, why it is here on earth and why you are here on earth
- Realize how easy it is to be invisible to every kind of energy
- Be free of your karma to create without the limitations of your past
- Assist others to free their past so they can feel the truth of love within themselves
