

The following series of **eight (8) graphic charts** is designed to clearly demonstrate our evolution as a soul and provide a pathway to the soul's purpose. The first chart is the simplest of all the charts - it shows the beginning of our journey in helping anyone else to heal. The balance of the charts become increasingly more dynamic in the way the information is presented. Each chart contains a full description which provides more insight into the graphics and flow of that chart.

Together with written descriptions, these charts provide:

the answers on karma
the dynamics of all energy
time changing reality
how to find the parts of us that are lost
releasing all fears
releasing attachments with others
the truth about the Akashic records
how we affect the weather
how to change your past completely
how to take all your own power and keep it safe
how to find the balance of your male and female aspects
and more.

There are many new ways of looking at old problems. This manuscript and these charts contain everything we have learned in our lives. Remember - everything really is different than we have been told. Find out the truth for yourself. There is a better way of living. There is a better way to BE who you are, where you are and why you are.

Chart C -

Description for chart four:

Living Light Language is creative energetic geometry - always available and surrounding us all the time. In order to work consciously with this vibration and all knowledge that the Akashic records or Source reflect, we close our eyes and put our fingertips on the outer, upper edge of each eyelid. Then we can see colors and shapes in each corner of the eyes. Bring the patterns together in the mind's eye, into the center of the vision between the eyebrows. Keep focusing upon the patterns until they align. Once the patterns in both eyes match, the right and left sides of our brain are balanced. Once balanced, sheets of geometric shapes can be seen coming towards us, like walls. Stay focused and open and watch sheet after sheet of Living Light Language arrive. These sheets of geometry contain billions of answers to every question ever asked. This is the way our minds normally receive information, whether we are conscious of it or not. Look through the layers and pick a point just beyond. At that moment, the experience of the information becomes holographic.

The Akashic records, which encompass all consciousness and reflect all creation in this dimension, are losing their physical or linear form. The records themselves are becoming fluid. This means that we are also losing our connection to the past and the future. We are becoming fluid to facilitate our movement through times of change. The Akashic records reflect not only what is happening to us, but also what is happening to all consciousness. Life as we know it is starting to collapse. Physical consciousness and structures of society are losing their form and their connections to the past and future. Since we are connected to the Akashic records, as they become fluid, we too must change and flow with them. Is it possible that karma and dharma will dissolve as the Akashic records change? As this occurs, it affects all consciousness everywhere.

This chart shows why we chose our parents. The emotional vibrations they reflect were our best teachers for what we needed to learn for our spiritual awareness and emotional evolution. Also represented on the chart are the many emotions of unresolved issues mixed together. When we review the past, we see that we were male and female in different cultures and also different ages in different life experiences. We see that when major events occurred on the earth, those events affected the collective consciousness. Symbols or geometric shapes were then associated to each vibration of these traumatic events. During our life experiences, when we viewed or came upon one of these symbols, all the information of that time would be 'down-loaded' or imprinted on us. A 'knowing' would become part of us and there would be change. We would not recognize where this 'knowing' came from, but we would be physically affected.

UNRESOLVED ISSUES - BEGINNING IN THIS LIFETIME

LIVING LIGHT LANGUAGE

POWER - CONTROL
 BETRAYAL - DISAPPOINTMENT
 SICKNESS - HURT BY SOMEONE
 WAR - SURVIVAL ENERGY
 POVERTY - HUNGER

 OUR MOTHER'S VIBRATION

We pick our parents because their vibrations reflect our past. Also, the country and culture would be a part of our choice.

Our past issues become compressed, which then become a combination of different vibrations.

We re-create every experience over and over again - until we understand

Each event or life experience creates a vibration which creates a consciousness of an energy that leaves a symbol for us to find in a later life experience.

The more energy we give to our past, the bigger it becomes until our past becomes its own vibration and symbol.

EACH OF US HAS AN EFFECT ON THE COLLECTIVE CONSCIOUSNESS OF EARTH. WE PUT SYMBOLS TO HELP US REMEMBER MAJOR LIFE EVENTS.
