

9-DAY INTENSIVE - COURSE OVERVIEW

"The purpose of the Heart & Soul Healing intensive program is to unconditionally share all the information gathered from thousands of individuals around the world, and to accomplish this by creating a safe place for each of us to move into the awareness of Oneness in complete balance. Join Nancy and I as we share the wisdom of the Third Eye of Horus Mystery Schools and the energetic shifts within the Collective Consciousness. Experience the physical manifestation of your own Higher Self and expand your awareness." KEN PAGE

About the Course: NINE days, 80 hours of experiential training that extensively expands the concepts and techniques of Heart & Soul Healing™ to include the very latest knowledge and information. Techniques that will be individually experienced and taught to each student during this intensive course will be:

- activation of will, power, control, and complete awareness of the physical body
- integration and realignment of unique individualized male/female templates from the Universal Self
- activating additional neural pathways of awareness in the brain
- bringing the Universal Self all the way in to the base chakra of the physical body
- activating the pineal to unify all chakras
- clearing the chakra prisms of energy from time bound overlays, as well as residue left by repeated "dusting" of energetic patterns of interaction
- individually locating, sustaining, and using, in a balanced way, the Source vibration to create in the third dimensional world
- using the energy of the moment to expand holographically

Individuals wishing to become certified practitioners of Heart & Soul Healing will be afforded full practicum, working with volunteer/clients.
